Profile Overview

A sense of time-honoured tradition runs throughout every product in the Dutch Quality Stone portfolio. This new profile offers a sense of classic charm and warmth for both interior and exterior projects. Stones of mixed sizes offer an aesthetic assortment with textural diversity to compose a cohesive collection. Rough Ashlar is an ideal option for projects that need to maintain a traditional style while providing a contemporary colour palette.

Rough Ashlar is available in a range of neutral colour palettes to blend with a clean and neutral look, or provide a traditional contrast to the more bold and artistic approaches within a space.
