(10-15% 4" to 5", 40-45% 6" to 8", 40-45% 9" to 12")
***smaller heights and custom height mixes are available*

Description

Saint Clare is a split face Kansas Limestone veneer with a classic castle-like appearance. Its height variation creates a classic, roughly rectangular but random appearance. Historically known as "rubble", Saint Clare is available in thin and full-bed.
